

# MTO & DOT AUDITS & REVIEWS

ABS SafeCom specializes in MTO & DOT Safety & Compliance Audits, where Experts review the Audits and do Analysis of Safety Ratings. We help Carriers to be COMPETITIVE by improving Safety Ratings and STAYING IN BUSINESS!

- 🔍 Your Goal must be Zero Violations. Stop Violations before they Stop You.
- 🔍 We work with our Clients to inform them about their Standings.

- 🔍 Each and every Audit is not the same. We offer Tailor-Made Solutions (complying with regulations) THAT LEAD YOU TO SUCCESS in any AUDIT.

## WHY

### Importance of the Safety Rating:

#### A. Public Label

A Carrier's Safety Rating is a Public Label that is assigned to your Company. The Registrar of Motor Vehicles or CSA, FMCSA of the US, assigns a RATING to a Carrier based on the company's Safety Record.

This RATING is based on:

\*Collisions \*Convictions \*Inspections \*Facility Audits

#### B. Performance Information

- A Carrier's SAFETY RATING provides information about their performance.
- Insurance companies, Financial Institutions, Competitors and Shippers can find out a Carrier's SAFETY RATING, and use this information to make informed decisions to do business with you.
- Carriers with GOOD SAFETY RATINGS can promote themselves to potential customers; whereas Carriers with poor SAFETY RATINGS are easily identified.

### Significance of the Safety Rating:

#### Carriers with Good Safety Ratings will:

- Attract Professional drivers
- Increase Business
- Beat the Competition
- Increase Profit

#### Carriers with Poor Safety Ratings may be affected by:

- Warning Letters, Onsite Detailed Investigations, Operations Out-Of-Service Orders (OOS)
- Higher Insurance Premiums
- Increase likelihood of Facility Audits
- Large Fines
- Increased Inspections & Downtime
- Loss of Partnership between Shippers and Carriers
- And eventually the Carrier goes out of business!

## HOW

**ABS SafeCom can Help You** if you are having MTO or DOT issues. If you want to improve your Carrier's SAFETY RATING, we can assist.

Over the years, we have assisted hundreds of Commercial Motor Vehicle Operators, Carriers and Drivers with just about every conceivable CVOR-related matter with the Ministry of Transportation (Canada) and the US Department of Transportation.
