

# SAFE & SMART DRIVER TRAINING PROGRAM

ABS SafeCom helps Professional Drivers get ahead and achieve excellence through our Safe & Smart Driver Training Program. The courses are designed to fulfill industry standards and are taught by Certified Instructors who use relevant content and authorized courseware. Ongoing evaluations are conducted by our team of Experts.

## IN-CLASS & ON-LINE TRAINING (AVAILABLE 7 DAYS/ WEEK)

### Training doesn't Cost, it Pays!

- Avoid unnecessary Fines and Legal Expenses.
- Training is Cheaper than paying fines for Non-Compliance.

### Made to Fit Courses!

- ABS SafeCom's CERTIFIED Fleet Driver Trainers can design a Customized Training course for Your specific Fleet Requirement.

## WHY

- **FMCSA Report 2016** outlines the Safety Interventions Process-Interventions that may be taken when a Carrier's safety performance data indicates a potential safety risk and application of the FMCSA's Safety Management Cycle - SMC- a methodical process that helps Carriers to understand and correct safety problems. The SMC considers six(6) areas or Safety Management Process (SMPs) of a Carrier's operations, of which Training is one of the processes recommended for corrective action.
- According to MTO Commercial Vehicle Operator Policy, Carriers have a legal obligation to undertake occupational health and safety actions to make sure staff is properly trained and retrained to carry out their duties effectively.
- Insurance companies also recommend ongoing training for your drivers.
- Transport regulators require mandatory training, with annual retraining for all drivers hired.

## HOW

Since 2002, ABS SafeCom has provided training through its Certified Instructors to THOUSANDS of Professional drivers!

- **We Commit** to creating a Safer Workplace by continually setting and Exceeding the Standards in transportation safety training.
- **We Educate** our clients in accordance with MTO & DOT requirements. Our clients get workplace training that enables them to approach employers with confidence, knowing that they have the skills and qualifications to Meet and Exceed Industry Standards.
