

SAFETY & COMPLIANCE MANAGEMENT

ABS SafeCom takes the tough, complex regulatory and business management work off your shoulders, so you can focus on your core business. We help Carriers reap the benefits of safe operations with proven safety practices so they can be in higher demand.

👉 Before You Start, Be Safety Smart! Safety and Compliance is a Full-Time job, do not make it a part-time practice !

👉 Reduce Risk + Improve Compliance = Stay In Business !
 👉 Know Compliance = No Violations !

WHY

Compliance is Necessary to do Business.

- The Transportation Industry is a heavily regulated industry in North America.
- "A Good Safety Program will not only reduce Property Damage, but more importantly, Prevent Injuries & Deaths".
- MTO & DOT state that due diligence is required i.e. "everything reasonable was established and implemented to prevent a violation or incident...due diligence requires that all policies, procedures and activities must be in place BEFORE collisions or violations occur."
- Managing an efficient and compliant safety program requires a combination of knowledge and expertise and keeping up to date with all new developments in the field.
- Whether you operate a one truck or a large fleet, YOU want to ensure your company complies with MTO or DOT Regulations and avoid unnecessary fines and legal expenses.

It's Proven!...When You Focus on...

- Developing and maintaining a well-trained driver force
- Performing proper maintenance on vehicles
- Keeping accurate records
- Complying with the specifics of transportation regulations
- Embracing the spirit of transportation regulations to improve highway safety

You will Enjoy...

- Less frequent equipment breakdowns
- Fewer collisions
- More satisfied employees
- Increased profits
- Better reputation
- Client satisfaction
